PayDroid

Based on a customised version of Android, the PayDroid operating system is a true embracement of open platform payments by PAX. PayDroid terminals feature special security processors and a triple-level PUK system for real-time monitoring to ensure the absolute safety of transactions.

POSitive

Each payment terminal comes with the POSitive payment app from PAX. A simple, easy to use and intuitive one-stop-shop application; made to ensure you can start taking payments straight away. Additionally enjoy the peace of mind that comes with a dedicated team of developers and support staff ready to ensure a seamless transition and quality in life use.

PAXSTORE

PAXSTORE is an innovative open platform appstore concept, designed to enable payment service providers, acquiring banks and large merchants to manage their own independent software distribution marketplaces.
