## SPc5 Countertop Terminal

A versatile and reliable terminal for retail POS environments.

The SPc5 offers simple operation combined with ability to perform fast and secure payment transactions, designed to operate on a countertop and can be connected to an optional PIN Pad (SPp10). The terminal is easy to use with intuitive keys and a large colour screen.

### **ABC** Easy to use

Colour screen and intuitive keyboard

### **Flexible configuration**

Operates as Standalone or as part of a POS solution

### **Reliable and Robust**

Designed to meet the demands of a mobile environment

### **Compatible**

Use the device as a handover or with SPp10 PIN-pad

### **Safe and Secure Payment**

Certified to the industry's highest security standards

### **Contactless**

Integrated contactless and NFC as standard

## Specification

## SPc5 Countertop

Processor	32-bit high performance ARM9 secure CPU
Memory	128MB Flash 64MB SDRAM
Communication	Dial-up Modem   Ethernet   2 x RS232   USB
SAM (Security Access Module)	2 conforming to ISO7816
Card Readers	Smart Card: ISO7816 1.8V, 3V, 5V synchronous and asynchronous T=0- and T=1 Magstripe: ISO1/2/3 track bi-directional swipe high coercivity Contactless: ISO 1443 Type A/B   NFC
Display	Graphic: Colour 320x240 pixel   TFT-LCD 2.4"   LED backlight
Keyboard	12 alphanumeric keys   3 navigation keys   3 function keys   On/Off key
Thermal Printer	High speed thermal   Graphic   34 lines/second   Barcode printing 50mm diameter paper roll
Power Supply	Plugtop AC: 100-240v, 50/60Hz
Dimensions	192mm (L) x 81mm (W) x 61mm (H)
Customisation	On screen   Printer lid
Environment	Operating temperature -10 to +55°C   Storage temperature -20 to +70°C Drop and shock resistant
Certifications	PCI PTS 4.x   EMV level 1 & 2   MasterCard PayPass   Visa PayWave
